# MEKA AT A GLANCE

## WHO WE ARE?

MEKA is a world-class manufacturer and supplier of Complete Plants and Equipment to the Concrete Plants and Mineral Processing sectors. The name MEKA is synonymous with efficiency and quality in more than 110 countries around the world.

## 35+ YEARS EXPERIENCE

Founded by an engineer, MEKA is a family-owned company. True to its roots, MEKA excels in engineering of high-end products at with the lowest service lifetime costs. Through continuous investment into engineering and manufacturing capacity, MEKA offers the best lifetime value to its customers.

*“MEKA is ready to meet the evolving global needs for the ready-mix concrete and mineral processing solutions required for the construction of a better world.”*

*Mehmet Kaybal  
B.Sc. ME, FOUNDER & CEO*

## %100 FULL SERVICE

From sales to final delivery, everyone on the MEKA staff is dedicated to the provision of the highest quality service to our customers. We provide in-depth details of the process early in the task and update our customers on specific details early in the task and update our customers on specific customer in mind and is backed by service extending years beyond the delivery of the product through the support of our local partners, our dedicated spare parts warehouses around the world and our in-house MEKA engineers who are ready to visit our clients' sites.

## 90.000m<sup>2</sup>+ MANUFACTURING SPACE

MEKA operates three specialized manufacturing facilities, each of which is crafted to provide optimum efficiency and service. When partnered with local service centers, MEKA boasts unparalleled manufacturing power. We currently have 90,000 m<sup>2</sup> total storage space, with more in planning.

Annual manufacturing capacity for concrete plants: 250+,  
for crushing plants: 150+.

## 500+ EMPLOYEES

MEKA is home to more than 500 employees, and the family is being added to day by day to ensure the provision of even better service to our clients. With the inclusion of our supplier base, our extended family numbers over 2000 people, consisting of hard-working fabricators, quality control engineers, designers, sales staff and more ...

Scenes from MEKA Factories

# R&D IS IN THE DNA OF MEKA

MEKA Makes difference. We listen to our customers and deliver the products they need. No-other manufacturer is as customer-focused as MEKA.

MEKA is a State Recognized Research and Development Center, which is a privileged position that allows us to set bolder targets for the future. More than 50 R&D Engineers from different disciplines work daily with the best draftsmen to bring you better products. We are currently working on more than 20 new projects that will be ready to meet the challenges that the changing market dynamics will bring.

*We work continuously with well-known companies in the world, provide solutions to world-class projects and you with insights.*

# CONCRETE BATCHING PLANTS

FOR READY-MIX CONCRETE,  
CONSTRUCTION,  
AND PRECAST INDUSTRIES

Concrete Batching Plants are used for manufacturing of high-quality concrete for a variety of construction applications, such as buildings, roads, bridges and airports. MEKA offers a wide range of Ready-Mix Concrete Batching Plants and MEKA Mobile, Compact and Stationary Concrete batching plants can be configured as special solutions for different kinds of concrete, including Roller Compacted Concrete, Road Concrete, Extra Heavy Concrete, Fiber-Reinforced Concrete, etc., according to the customers' specific requirements.

Our Single Shaft, Twin Shaft and Planetary Concrete Mixers cover a wide range of needs and add flexibility to the manufacturing process. MEKA also offers different components and options for the concrete sector that increase performance, add flexibility, improve accountability and enhance operational characteristics.

# STATIONARY CONCRETE BATCHING PLANTS

ENGINEERING TO WORK AT FULL CAPABILITY, EFFICIENCY AND RELIABILITY FOR A VARIETY OF LARGE SCALE AND HIGH-QUALITY CONCRETE PRODUCTION.

MEKA Stationary concrete production equipment is built to offer maximum rated production capacity and to work long hours, while bringing the necessary flexibility for use in a wide variety of projects – especially massive infrastructural and precast concrete projects.

# MOBILE CONCRETE BATCHING PLANTS

MEKA MOBILE PLANTS ARE DESIGNED TO BE MOVEABLE, BEING MOUNTED ON A TOWABLE CHASSIS FOR MAXIMUM MOBILITY AND RAPID SETUP.

Mobile batching plants are perfect for temporary construction sites or construction projects where the equipment is only needed for specific project phases. They can be easily installed and dismantled, and require minimal preparation and setup times.

# COMPACT CONCRETE BATCHING PLANTS

WITH A COMPACT DESIGN,  
THESE PLANTS ARE  
THE OPTIMUM READY-MIX  
CONCRETE SOLUTION FOR  
TIGHT SITES.

MEKA Compact concrete batching plants are flexible,  
durable and provide class-leading productivity.

They are the preferred solution of contractors and  
ready-mix concrete companies seeking an efficient,  
unique and rapid solution.

## JOB-SITE CONCRETE BATCHING PLANTS TECHNICAL SPECIFICATIONS

# JOB-SITE CONCRETE BATCHING PLANTS

A COMPLETE PLANT, INCLUDING THE CONCRETE TRANSFER CONVEYOR, CAN BE DELIVERED IN A SINGLE 40' OPEN TOP (OT) CONTAINER OR A STANDARD TRUCK.

MB-S30 On-Site Ready-Mix Concrete Plants, engineered and manufactured by MEKA Global, offer more efficient and economical approach to the production of high-quality concrete on small-sized construction sites and for a range of applications or temporary works.

# ■ PRECAST AND RCC CONCRETE BATCHING PLANTS

MEKA OFFERS UNIQUE DESIGNS AND TAILOR-MADE SOLUTIONS FOR SPECIFIC CONCRETE PRODUCTION APPLICATIONS, INCLUDING ROAD CONCRETE, RCC (ROLLER COMPACTED CONCRETE), PRECAST, AMONG OTHERS.

Building bespoke plants requires a strong engineering background, experience and a dedicated labor force. The MEKA engineering team has the ability to develop complex plant layouts with a variety of equipment options.

# CONCRETE FIBER FEEDING/DOSING SYSTEM

MEKA FIBER DOSING EQUIPMENT FEATURES HIGHLY ACCURATE STEEL AND SYNTHETIC FIBER DOSING.

MEKA Fiber Feeding Systems can be supplied with integrated conveyors and storage on request, as well as any additional equipment that can be custom-made to suit the requirements of our customers. The fiber weighing and feeding process can be integrated into the automated processes of the concrete plant to ensure full control over mixing quality and homogeneity.

# TWIN SHAFT SINGLE SHAFT PLANETARY CONCRETE MIXERS

THE HOMOGENOUS MIXING OF AGGREGATES, CEMENT, WATER, ADDITIVES AND OTHER COMPONENTS IS ONE OF THE MOST IMPORTANT STEP IN CONCRETE MANUFACTURING.

MEKA offers an extensive range of high-performance concrete mixers – Single Shaft, Twin Shaft and Planetary with variety of different capacities.
