MEKA Stationary Concrete Plants

MEKA stationary concrete batching plants have been designed for maximum efficiency and reliability for producing all types of high quality concretes, with production outputs from 30m³ to 250m³ per hour.

MEKA's stationary plants are available with a variety of options and can be configured to meet each client's individual needs.

There are more than 1500 MEKA concrete plants running all over the world in different climatic conditions helping to build better infrastructure, better cities and better life. We are aware

of how important is the role of a concrete plant in completing a project.

Keeping it in mind we design stable and long lasting structures, we have one of the best after-sales teams which is ready to help in minutes where possible and we use high-quality components (like WAM, SIEMENS, FESTO) which are available worldwide to make sure that our customers rely on equipment they purchased and are not bind to us in solving minor service issues. Meeting our customers' expectations, we take pride in our flexible engineering solutions for different applications.

Why MB-60W Stationary Concrete Plant?

- ▶ Prompt Reply For Service And Spare Parts
- ▶ Top Quality Components
- ▶ Hardwearing Mixer Linings
- ▶ Manufactured For Heavy Duty Operations
- ▶ Optional Cladding Available
- ▶ Reduced Power Consumption On Account Of Short

Technical Specifications

Specification	Value
Capacity	60 m ³ /hr
Mixer Type	Singleshaft
Mixer Capacity (compact)	1 m ³
Motor Power	37 kW
Aggregate Compartments	3 - 4 No.

Specification	Value
Mixer Feeding Conveyor	800x29.000 mm
Aggregate Weighing Capacity	2.200 kg
Cement Weighing Capacity	500 kg
Water Weighing Capacity	250 kg
Additives Weighing Capacity	Optional

Head Office: Çamlıca Mh. Anadolu Bl. 147. Sokak Atlas İş Merkezi No: 5/9, 06200 Gimat, ANKARA / TURKEY

About Meka

MEKA is a professional enterprise focused only on manufacturing of concrete batching plants. Being a fast-growing Turkish manufacturer that provides a complete scope of services such as identifying its customer's needs, project planning, design, engineering, production, quality control, commissioning, personnel training and after-sales support, MEKA is on its way to becoming a global brand.

MEKA is committed to the principle of perfection in all its products and services presented to its customers. Providing its customers with information before sales, conducting a need analysis and after-sales support are all the services given within the framework of the principle of perfection, thus making MEKA the "reliable partner" of its customers.

MEKA: Leader in Europe In Terms of Manufacturing Force

MEKA is progressing with strong steps towards becoming a global leader with 300 personnel, 30 engineers and 3 manufacturing facilities (at Ostim/Ankara – 5.000 m², Temelli/Ankara- 18.000 m², Eskisehir – 30.000 m²) equipped with advanced technological infrastructure providing its annual production capacity of 250 concrete batching plants.
