MEKA Stationary Concrete Plants

MEKA stationary concrete batching plants have been designed for maximum efficiency and reliability for producing all types of high quality concretes, with production outputs from 30m³ to 250m³ per hour.

MEKA's stationary plants are available with a variety of options and can be configured to meet each client's individual needs.

There are more than 1500 MEKA concrete plants running all over the world in different climatic conditions helping to build better infrastructure, better cities and better life. We are aware

of how important is the role of a concrete plant in completing a project.

Keeping it in mind we design stable and long lasting structures, we have one of the best after-sales teams which is ready to help in minutes where possible and we use high-quality components (like WAM, SIEMENS, FESTO) which are available worldwide to make sure that our customers rely on equipment they purchased and are not bind to us in solving minor service issues. Meeting our customers' expectations, we take pride in our flexible engineering solutions for different applications.

Why MB-110K Stationary Concrete Plant?

- ▶ 105-117 m³/h capacity
- ▶ Main chassis completely galvanized
- ▶ Aggregate holding hopper included
- ▶ Low profile 4x25 m³ robust aggregate bin
- ▶ Modular construction allows easy installation

Technical Specifications

Specification	Value	Specification	Value
Capacity	105 - 117	Mixer Feeding Conveyor	1.000x29.000 mm
Mixer Type	Twin Shaft	Aggregate Weighing Capacity	4.400 kg
Mixer Capacity (compacted)	2,25 m ³	Cement Weighing Capacity	1.000 kg
Motor Power	2x37 kW	Water Weighing Capacity	700 kg
Aggregate Compartments	3 - 5 No.	Additives Weighing Capacity	Optional

About Meka

MEKA is a professional enterprise focused only on manufacturing of concrete batching plants. Being a fast-growing Turkish manufacturer that provides a complete scope of services such as identifying its customer's needs, project planning, design, engineering, production, quality control, commissioning, personnel training and after-sales support, MEKA is on its way to becoming a global brand.

MEKA is committed to the principle of perfection in all its products and services presented to its customers. Providing its customers with information before sales, conducting a need analysis and after-sales support are all the services given within the framework of the principle of perfection, thus making MEKA the "reliable partner" of its customers.

MEKA: Leader in Europe In Terms of Manufacturing Force

MEKA is progressing with strong steps towards becoming a global leader with 300 personnel, 30 engineers and 3 manufacturing facilities (at Ostim/Ankara – 5.000 m², Temelli/Ankara- 18.000 m², Eskisehir – 30.000 m²) equipped with advanced technological infrastructure providing its annual production capacity of 250 concrete batching plants.
